May 25, 2010

Greetings:

This is to let you know that a first draft of the Kitsap County Shoreline Inventory and Characterization is now available for review and comment. It is a very large document – 500 pages with many maps.

Your feedback is important. The Inventory and Characterization provides comprehensive, detailed information on shorelines that will be referred to as the County updates and revises its Shoreline Master Program (SMP). We are requesting comments specifically on whether we are missing shoreline information or need to correct the shoreline information that is in this draft.

We have posted this document on the SMP web site www.kitsapshoreline.org for public review. The document is available on a CD for purchase for $5.00 each from the Department of Community Development (DCD) front counter. Finally, a hard copy is also available for review during regular business hours at the DCD front counter. There are two ways to provide feedback and comment:

1) Log on to www.kitsapshoreline.org and click on the “review and comment” tab. Select “Inventory and Characterization” from the drop-down subject menu and enter comments in the comment block provided; or
2) Submit written comments to the address below.

Comments on this draft are requested by July 31, 2010

Thank you very much for your attention to this important matter. If you have any questions or know of other individuals, offices or agencies that should be made aware of this, please let us know!

Sincerely,

Susan Donahue, SMP Project Manager
