7:40 More Task Force Discussion

8:30 Public Comment

8:40 Tee Up for April 7 and Adjourn
Kitsap County Shoreline Master Program Update
Shoreline Master Program Task Force
March 3, 2011
Preparation and Discussion Guide

This meeting will focus on the “Natural” environment designation for Kitsap’s shorelines. DCD staff will present the areas proposed for the “Natural” designation based on the Washington Administrative Code (WAC) criteria. And, we will get your feedback on the specific policies associated with that designation.

We will be reviewing and discussing the seven Management Policies provided by the WAC for the Natural designation. These policies, in turn help to set the stage for the uses and modifications allowable within that designation. Staff will present each of these policies, including how those recommendations compare to the uses and modifications that are currently allowed.

We’ll then ask for your feedback: Do you generally agree with the WAC recommendations, or do you have other ideas for the Management Policies that will guide the uses and modifications that should be allowed within the Natural designation?

This will be a 3M; otherwise known as a “Most Meaty Meeting” since we have lots to discuss. That means we will start promptly at 6:30 so we have time to get through everything.

The DCD team has also developed a draft Table of Contents for the Shoreline Master Program, and will be presenting that, along with the comparative chart that provides more detail on the preliminary draft environment designations. Those are attached to this agenda, and we’ll also discuss them at the meeting.

Margaret will also provide a brief summary of the telephone conversations she’s had with Task Force members these past couple of weeks. Thank you to everyone who took the time for those phone chats!

Public Comment
Ten minutes of public comment are built into all of our meeting agendas.

Tee up for April 7: We will be discussing the proposed Rural Conservancy and Urban Conservancy designations.
