Issue #1: Port Gamble

A: Permit process recommendation

1. **Remove** special Port Gamble Urban Conservancy Management Policies (p.3-4, Sections 3.2.3.C.6 and 7).

2. **Add** new policy “C” under “Relationship to Other Plans and Regulations” (p.1-2, Section 1.5. - bump existing policies “C” and “D” to “D” and “E”):

   C. When achieved in accordance with Title 17 KCC (Zoning), building and lot dimension flexibility may be allowed on Urban or LAMIRD shorelines when consistent with the Act and all other applicable requirements of this Program, including the requirement to achieve no net loss of shoreline ecological functions.

   Further, in order to preclude fragmentation of review and the necessity for individual shoreline permits, a combined shoreline permit is encouraged to allow for full review of proposed activities within the shoreline jurisdiction.

B: Port Gamble buffer options (p.5-8, Section 5.5.2.B.3)

1. Retain special 50 foot Reduced Standard Buffer for Port Gamble Urban Conservancy area, or

2. Eliminate Port Gamble provision and revert to 85 foot Urban Conservancy Reduced Standard Buffer.
