

# Vision Statement

- Comply with legislative mandates including requirements for no net loss of shoreline ecological functions and values
- Protect private individual property rights consistent with the public interest
- Create a shoreline stewardship program that fosters reasonable and appropriate shoreline uses while protecting valuable and fragile natural resources
- Engage a wide variety of stakeholders, citizens and interests in developing goals and policies
- Integrate and support County development plans, policies, and regulations
- Ensure predictability, accountability, and efficiency during shoreline development review and decision making
- Have a strong scientific basis
